Mini Track: Methodologies for the implementation of KM processes

Chair: Rivadávia Correa Drummond de Alvarenga Neto, Fundação Dom Cabral, Brazil

There has been a lot of discussion on the topic of Knowledge Management (KM), its concepts, practices, tools and metrics. In spite of that, we've noticed a lack of discussion about the implementation of KM processes. How is it done? How is KM implemented? How is the process designed? What are the problems that occur in implementation? What about the organizational barriers and impact in the organizational model/structure? How long does it take to succeed? This mini-track is focused on the implementation of KM processes in organizations. We welcome case studies, proven or designed methodologies and relevant experiences in implementation that succeeded or not. This mini-track is open to both academics and practitioners.

In that context we would welcome papers that would focus in the following topics:

- KM methodologies
- KM implementation;
- KM processes;
- KM in organizations
- Methodologies for the implementation of KM

Selected papers from the conference will be considered for publication in the Electronic Journal on e-Knowledge Management, <http://www.ejkm.com>

Submission details:

Abstract details: The Abstract should be a minimum of 300 and no more than 500 words including up to five keywords and keyphrases to be received by **12 March 2009**. Please read the abstract guidelines section of the website before submitting.

Submission: Online at <http://academic-conferences.org/icickm/icickm2009/icickm09-abstract-submission.htm>
Please ensure that you complete all relevant sections of the form, including the conference track the abstract is intended for, the proposed title for the paper, the full names (first name and surname, not initials) and email

addresses of all authors and a postal address and telephone number for at least one contact author. Please indicate clearly if the contact author is not the lead author.

Full paper: Only required when the abstract has been selected and not to be more than 5,000 words including abstract, keywords and references (the Harvard referencing rules need to be followed). Submission date will be no later than 30 April 2009. Papers should be submitted as .doc or .rtf file attachments by email to the Conference Manager, [Elaine Hayne](mailto:Elaine.Hayne@academic-conferences.org) at <mailto:elaine.hayne@academic-conferences.org>

The selection panel of the conference committee will consider all abstracts received by the submission deadline to ensure that the proposed paper is relevant to the Conference. The authors of abstracts that describe a relevant paper will receive a notification of abstract selection. All full papers will be double-blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, the standard of English is adequate and the paper is appropriately referenced. For authors whose first language is not English we request that you have your work proofread preferably by a native English speaker prior to submission (or at least a fluent English speaker) – papers may be rejected due to a poor standard of English. Papers that are accepted will be published in the conference proceedings providing at least one author registers and presents the work at the Conference (see the registration section of the conference website for more information about registration).

Due to the large number of papers expected for this conference, the committee only allows an author to present one paper. Therefore if multiple papers are accepted for presentation different co-authors need to present each paper.
