The selection panel of the conference committee will consider all abstracts received by the submission deadline to ensure that the proposed paper is relevant to the Conference. The authors of abstracts that describe a relevant paper will receive a notification of abstract selection. All full papers will be double-blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, the standard of English is adequate and the paper is appropriately referenced. For authors whose first language is not English we request that you have your work proofread preferably by a native English speaker prior to submission (or at least a fluent English speaker) – papers may be rejected due to a poor standard of English. Papers that are accepted will be published in the conference proceedings providing at least one author registers and presents the work at the Conference (see the registration section of the conference website for more information about registration).

Due to the large number of papers expected for this conference, the committee prefers that an author presents only one paper. However, if multiple papers are accepted for publication and presentation, each paper requires a separate registration fee.
