Mini track on Entrepreneurship and Policy-making

Track co-chairs: Claire Auplat, Imperial College, London, UK and Dr Renaud Redien-Collot, Advancia, the School of Entrepreneurship of Paris Chamber of Commerce, France

Recent research in entrepreneurial cognition has started emphasizing the influence of policy-making on entrepreneurship. However, there has until now not been a systematic analysis of the nature of the interactions between the two. This track aims to be a meeting point for research initiatives that seek to shed some light on how policy-making may foster, or conversely impede, entrepreneurship.

Several orientations of research can be imagined, and we welcome submissions coming from various disciplinary or methodological horizons. We are keen to encourage practitioners to contribute as well as academics and we would like to encourage proposals dealing in particular with one of the following aspects:

Topics include, but are not limited to:-

- Entrepreneurship and regulatory issues
- Environmental policies and ecopreneurship
- Entrepreneurship and development policies
- Entrepreneurship in new technologies and risk management
- Entrepreneurship and innovation policies

The list above is not comprehensive as policy-making may cover a wide range of topics relating to entrepreneurship. We welcome contributions in the form of empirical or theoretical papers, surveys as well as case studies. We particularly look forward to submissions that may contribute to the emergence of new business models.

Publication opportunity

Papers accepted for the conference will be published in the conference proceedings, subject to author registration. The proceedings have an ISBN and ECIE proceedings are listed in the Thomson ISI Index Social Sciences & Humanities Proceedings (ISSHP/ISI Proceedings), the Thomson Index to Social Sciences & Humanities Proceedings (ISSHP) and indexed by the Institution of Engineering and Technology in the UK.

As well as full academic papers, the following submissions are welcomed:

Research in Progress; Researchers may submit current projects whilst they are still in progress.

Case Study Submissions; Submissions should be written to publishable standards.

Poster Submissions; Welcomed in any of the areas identified in the call for papers.

Round Table Proposals; Topical subjects proposed for discussion.

Practitioner Contributions; Contributions, either presentations or demonstrations, from individuals and organisations working in the field. Presentation submissions should follow the abstract submission process. For product demonstrations, please submit a proposal of 200-300 words describing a research facilitation product you would like to demonstrate and the audience it serves. Proposals should be sent as an email attachment to [Sue Nugus](mailto:Sue.Nugus@academic-conferences.org) not later than **15 April 2010**. Demonstrations themselves are expected to be approximately 15 minutes in length.

Submission details

Abstract details: Other than product demonstrations, all submission types require a 300-500 word abstract in the first instance, to be received by **25 February 2010**. Please read the guidelines at <http://academic-conferences.org/abstract-guidelines.htm>

Submission: Only accepted by online form submission at <http://academic-conferences.org/ecie/ecei2010/ecie10-abstract-submission.htm>.

Full paper: Only required for academic submissions once the abstract has been selected, no more than 5,000 words to be received **15 April 2010**. Papers should be submitted as .doc or .rtf file attachments by email to the Conference Manager, [Elaine Hayne](mailto:Elaine.Hayne@academic-conferences.org) at elaine.hayne@academic-conferences.org

All full papers will be double-blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, the standard of English is adequate and the paper is appropriately referenced.
