Mini track on Performance Evaluation in Further and Higher Education

Track chair: Milena Bobeva, Business School, Bournemouth University, UK

Evaluation of institutional effectiveness has been recognised as a key strategic issue for colleges and universities. There have been different initiatives at national and local level to support the move towards developing performance evaluation systems accounting for the views and values of key stakeholders.

This session invites reviews of current practice and position papers on how educational establishments within the FHE sector have addressed the challenges of the highly competitive educational programmes market. Contributions are expected from both public and private sector providers and could focus on overall performance management and evaluation of programmes, or on a specific aspect of the educational value chain.

Suitable topics may include, but are not limited to:

- Assessing the effectiveness of performance evaluation systems within FHE and the set of key performance evaluation indicators they operate
- Evaluating frameworks and models of best practice for developing, launching, integrating and sustaining performance evaluation systems in FHE
- Management of performance evaluation systems within FHE, including dealing with perceptions, attitudes when introducing new performance evaluation indicators and systems.
- Selecting and sustaining effective computer-based solutions for integrated performance evaluation within HE
- The role of government and businesses in FHE performance management.

Publication opportunity

Papers accepted for the conference will be published in the conference proceedings, subject to author registration. The proceedings have an ISBN and ECIME proceedings are listed in the Thomson Index to Scientific and Technical Proceedings (ISTP), the Thomson Index to Scientific and Technical Proceedings (ISTP/ISI Proceedings), the Thomson Index to Social Sciences & Humanities Proceedings (ISSHP) and the Thomson Index to Social Sciences & Humanities Proceedings (ISSHP/ISI Proceedings).

Selected papers from the conference will be considered for a special conference issue of the Electronic Journal of Information Systems Evaluation – <http://www.ejise.com>. The journal is listed on the International Bibliography of Social Sciences (IBSS)

As well as full academic papers, the following submissions are welcomed:

Research in Progress; Researchers may submit current projects whilst they are still in progress.

Case Study Submissions; Submissions should be written to publishable standards.

Poster Submissions; welcomed in any of the areas identified in the call for papers.

Round Table Proposals; Topical subjects proposed for discussion.

European Conference on Information Management and Evaluation, Göteborg, Sweden, September 2009

Practitioner Contributions; Contributions, either presentations or demonstrations, from individuals and organisations working in the field. Presentation submissions should follow the abstract submission process.

For product demonstrations, please submit a proposal of 200-300 words describing topic related product you would like to demonstrate and the audience it serves. Proposals should be sent as an email attachment to [Sue Nugus](mailto:Sue.Nugus@academic-conferences.org) not later than **16 April 2009**. Demonstrations themselves are expected to be approximately 15 minutes in length.

Submission details
