Conference Chair: William Mahoney, Peter Kiewit Institute, University of Nebraska, Omaha, USA

Programme Chair: Edwin Leigh Armistead, Edith Cowan University, Australia

Keynote Speaker: Dr. Roger Schell, Asec Corporation.

Brian Lopez, Lawrence Livermore Laboratories, California, USA

Call for Papers, Workshops and Tutorials

Information warfare and security are at the forefront of modern defence strategies. Strong strands of research and interest are developing in the area, including the understanding of threats and risks to information systems, the development of a strong security culture, as well as incident detection and post incident investigation. The International Conference on Information Warfare and Security (ICIW) offers an opportunity for academics, practitioners and consultants from the US, North America and elsewhere who are involved in the study, management, development and implementation of systems and concepts related to information warfare or are interested in ways to improve information systems security, to come together and exchange ideas. This conference is continuing to establish itself as a key event for individuals working in the field from around the world.

The advisory group for the conference invites submissions of papers on both the theory and practice of all aspects of Information Warfare and Security. The conference in April 2008 is seeking qualitative, experience-based and quantitative papers as well as case studies and reports of work in progress from academics, information systems practitioners, consultants and government departments. Topics may include, but are not limited to, *Adversarial Learning and planning; Anonymous Routing; Anti-Forensics; Biometrics; Botnets; Business continuity planning; Coordination Theory; Corporate defence mechanisms; Cryptography; Cyber-terrorism; Damage Assessment; Deception, Reactive and Proactive; Denial of Service; Differential Power Analysis (DPA) Attacks; Disaster recovery; e-Intelligence/counter-intelligence; Electro-magnetic pulse weapons; Ethical, Political and Social Issues relating to Information Warfare; Geospatial Security; Hacking; Homeland Security; Honeynet countermeasures; Information Assurance; Information Operations; Information warfare and security education; Information warfare policy; Information warfare techniques; Information warfare theory; Information, computer and network security; Infra-structure warfare; Intrusion Detection; Insider Threat; ISO27001 ISM3 Security Management Maturity; Legal issues concerned with information warfare and e-Crime; Malware; National security policy; OODA Loop; Petri Nets; Perception management; Physical security; Proliferation Security Initiative (PSI); Risk analysis and assessment; Security Education; Security for small to medium*

enterprises; Security policy; Vulnerability assessments.

Submission details

Abstract details: The Abstract should be a minimum of 100 and no more than 300 words including between 5 and 7 keywords to be received by **15 November 2007**.

Submission: Use the online Abstract Submission Form. Please ensure that you complete all relevant sections of the form, including the proposed title for the paper, the full names (first name and surname, not initials), and email addresses of **all** authors and a postal address and telephone number for at least one contact author. Please indicate clearly if the contact author is not the lead author.

Full paper: Only required after acceptance of abstract and not to be more than 5,000 words including abstract, keywords and references. Submission date will be no later than **3 January 2008**. Full papers should be sent as .doc or .rtf attachments, by email to the conference manager, [Elaine Hayne](#)

Important information

The selection panel of the conference committee will consider all abstracts received by the submission deadline to ensure that the proposed paper is relevant to the Conference. The authors of abstracts that describe a relevant paper will receive a notification of abstract selection. All full papers will be double-blind reviewed by members of the conference committee to ensure an adequate standard, that the proposed subject of their abstract has been followed, that the paper is of a suitable length, the standard of English is adequate and the paper is appropriately referenced. Papers that are accepted will be published in the conference proceedings providing at least one author registers and presents the work at the Conference (see the registration section of the conference website for more information about registration). Due to the large number of papers expected for this conference, the committee only allows an author to present one paper. Therefore if multiple papers are accepted for presentation different co-authors need to present each paper.

Important Dates

Abstract submission deadline:	15 November 2007
Notification of abstract acceptance:	22 November 2007
Full paper due for review:	3 January 2008
Notification of paper acceptance (with any changes):	14 February 2008
Final paper due:	6 March 2008
