

ECCWS 2021

20th European Conference on Cyber Warfare and Security

24 - 25 June 2021, Chester, UK

Mini Track on Cyber Security and Privacy for the Internet of Things and other Emerging Technologies

Mini Track Chair Sangapu Venkata Appaji, KKR and KSR Institute of Technology and Sciences, India

The purpose of this track is to bring together experts including academics and industrialists working in the field of cyber security research with interests in emerging technologies such as educational technologies, Internet of Things, Artificial intelligence, Smart environments, Block Chain, 5G Services, Cloud Computing and Robotics. The systems based on these technologies are considered as critical infrastructures and have seemingly captured human dependence completely. These technologies have attracted investors, academia and researchers equally and are expected to have a drastic global impact on human life and economy. This mini track is expected to attract field experts, academics and researchers to present and discuss ongoing research, latest developments, possible solutions and future challenges of cyber security and privacy in emerging technologies. Subjects of interest to this mini-track may include but are not limited to:

- Cyber Laws, Policies, Cyber-attack predication, Risk Assessment and Impact Analysis In emerging technologies
- Cyber security Strategies for networked Robotics and automation
- Cloud Forensics Approaches to deal with cybercrimes
- Awareness to deal with Cyber-attack and cyber warfare in fourth Generation Industry applications

Dr. Sangapu Venkata Appaji is working as a Professor, at KKR and KSR Institute of Technology and Sciences, Guntur, India. He completed his doctorate in Computer science and Engineering in the area of Cryptography and Network Security from Jawaharlal Nehru Technological University Hyderabad, INDIA. He has more than 10 years of teaching experience in Computer Science and engineering and Information Technology department for graduate and post graduate students. He supervised IOT, Security related projects for graduate and postgraduate students.

Submission details

In the first instance a 300-word abstract is required, to be received by **2nd of December 2020**. Please read the guidelines at <http://www.academic-conferences.org/policies/abstract-guidelines-for-papers/>

Submissions must be made using the online submission form at <http://www.academic-conferences.org/conferences/eccws/eccws-abstract-submission/>

If you have any questions about this track please email: appaji_sv@yahoo.co.in
