

## ECRM 2022

### 21st European Conference on Research Methodology for Business and Management Studies

2 - 3 June 2022, Aveiro, Portugal

#### Mini Track on Research Validation Methods

Mini Track Chair: Dr. Hamed Taherdoost, University Canada West, Vancouver, Canada

One of the most frequently used tools to collect data in research is a questionnaire/survey. It is of crucial importance to ensure the validity and reliability of the questionnaire/survey since it will be employed to provide sound and replicable data that is mainly the basis of presenting accurate research findings. Thus, for a questionnaire/survey to be regarded as acceptable, it must be evaluated from reliability and validity aspects. This mini-track would concentrate on the different

types of the Validity and Reliability testing. And opening discussion on the new methods of the validation assessment.

Topics of interest include, but are not limited to:

- Validity Methods
- Survey Measurement Validation
- Validity of Experimental Research Validation
- Empirical Research Instruments
- Questionnaire Designing
- Questionnaire Validity

**Hamed Taherdoost.** Ph.D. is a senior member of the IEEE, IASED & IEDRC, working group member of IFIP TC 11, professional member of IFERP, and member of ACT-IAC and CSIAC, and many other professional bodies. He has authored over 130 scientific articles in authentic journals and conferences, seven book chapters, and six books in the fields of technology and research methodology. He is the editorial, reviewer, and advisory board member of some authentic peer-reviewed journals publishing with Taylor & Francis, Elsevier, Inderscience, MDPI, EAI, & IGI Publishing, and has served as an editor of book & proceedings for prestigious publishers. He has been a Technical Program Committee, Scientific Committee, and Organizing Committee of many international conferences.

#### Submission Details

In the first instance a 300-350 word abstract is required, to be received by the **10th November 2021**.

Submissions must be made using the online submission form at: <https://www.academic-conferences.org/conferences/ecrm/ecrm-abstract-submission/>

If you have any questions about this track please email the mini track chair: [Hamed.taherdoost@gmail.com](mailto:Hamed.taherdoost@gmail.com)
