

## ICGR 2024

### 7th International Conference on Gender Research

25–26 April 2024, Barcelona, Spain

#### Mini Track on Gender, Entrepreneurship, and Innovative Technologies

Mini Track Chair: Dr Navjot Sandhu, Birmingham City University, UK

In the current era it will be good to explore the gender linkages and examine the relationship between technological adoption and changes to social, political, economic and cultural paradigm. The objective of this track will be to provide a platform for original research and theorizing on the shifting meanings of gender. Women face many gender-based barriers while accessing finance and technologies, and available technologies often fail to meet their needs. It will be good to address various issues in the context of transnational phenomena and engaging in dialogues that cut across geographical boundaries. This track will attract papers from multi disciplines and gender considerations should inform policies to ensure that the different economic roles and challenges for both men and women are appropriately recognised, and adequate measures should be in place towards to meet the 2030 Sustainable Development Goals, including gender equality and women empowerment.

Topics welcomed for inclusion in the mini track include and are not limited to:

- Gender and innovation
- Female entrepreneurship in the digital ear
- Impact of entrepreneur's gender on innovative activities
- Gender gap in STEM entrepreneurship
- Empowering women entrepreneurs through innovation
